### Falaknuma Castle.

The Castle is a large and extensive structure, built on a hill which commands a good view of the City and Suburbs. The facade of the building is in the Grecian style, the pediment resting on a double row of Corinthian pillars and containing at the centre the coat-of-arms of His Exalted Highness the Nizam. The ground in front of the building is arranged into garden terraces. The interior of the palace is reached by a double flight of steps which lead to a spacious veranda. The marble vestibule, which seems delightfully cool even on the hottest day, has marble seats round a beautiful fountain. The walls and the ceiling of the vestibule are artistically painted and decorated. Beyond the vestibule is a waiting room, adjoining which is the library containing a most valuable collection of illuminated manuscripts and printed books.

The staircase leading to the upper floor is of marble, with carved balustrades, supporting at intervals marble figures. On the walls of the landing are excellent oil-paintings of the Asaf Jahi family, the past ministers and notable personages, the whole forming a very interesting historical picture gallery which adds greatly to the imposing effect of the staircase. The State Reception Room is decorated with costly draperies and furniture, the collection of jade in it is considered to be unique in the world. Some of the almirahs contain Crystal, Diamonds and Emerald objects, valued at over three and a half crores of rupees (£ 2·3 millions).

The Castle has acquired almost historic fame, having been associated with the names of a large number of distinguished personages who have stayed there. The

most exalted on the list being His Majesty King George V, Emperor of India and the Prince of Wales.

### **Chowmahalla Palace.**

The Palace is a copy of the Shah's palace at Tehran, although considerably finer in architectural construction than the latter. It consists of a series of quadrangles with handsome open-fronted buildings on either side, and covers an extensive area—almost as large as one fifteenth of the entire city. The main quadrangle has a beautiful garden surrounding a large marble cistern, the fountains and splashing waters of which in moon-lit nights have been compared by a visitor with one of the enchanted gardens described in the 'Arabian Nights.' To the north of the cistern is the grand Durbar Hall where His Exalted Highness holds State receptions and receives the visits of official notabilities.

### **Residency.**

The palatial pile, wherein the British Resident at the Court of His Exalted Highness the Nizam, resides, is situated on the left bank of the River Musi, opposite the north-eastern corner of the city. The building is of considerable architectural elegance and stands in the midst of a beautiful park-like expanse with handsomely laid-out gardens. On its site once stood a villa belonging to His Highness Nawab Nizam Ali Khan Bahadur (1761-1803), and in it Sir John Kennaway, the third Resident, who was appointed in 1788 was received. The house was afterwards found not suitable and in 1800, when Colonel Kirkpatrick was Resident, the present building was begun. It was designed by

Mr. P. Russell of the Royal Engineers who also superintended its erection, all of which was carried out by Indian workmen.

The chief entrance of the building faces the north. The portico to which a fine flight of marble steps leads, is 60 ft. by 26 ft. At the top of the steps on each side, is the colossal figure of a crouching lion. The roof of the portico is supported by six lofty Corinthian pillars covered with chunam so fine as to give them the appearance of marble. In the pediment of the portico are the Royal Arms in relieve. The lower storey of the building consists of reception and sitting rooms handsomely furnished. The former is a stately hall, 60 ft. by 30 ft. and 50 ft. high, encircled by a gallery supported by thirty-two columns. The storey above the reception room contains a large suite of rooms which are reserved for the accommodation of distinguished guests.

### Osmania General Hospital.

*The Osmania General Hospital*—It is a picturesque three-storeyed structure in the Indo-Saracenic style with a main central dome and subsidiary domes. It is built on the banks of the river Musi and has cost Rs. 21 lakhs. The plans were supplied by a Calcutta architect during the Directorship of Dr. Lankester, M.D., (London). The Hospital is now fully equipped with modern and up-to-date instruments and appliances. Being the chief institution for medical relief in the city, it has a large highly qualified staff of 12 Civil Surgeons, 24 Assistants and 87 nurses. It has accommodation for 500 in-door patients and the daily average number of out-door patients last year was 961.

## ATTENDANCE.

*Daily Average.*

		In-patients	Out-patients
1338 F.	..	213	512
1339 F.	..	293	556
1340 F.	..	361	618
1341 F.	..	425	795
1342 F.	..	453	961

The daily average number of in-door patients has increased from 181 in 1929 to 425 in 1933 and the daily average out-patients' attendance from 455 to 795.

Special departments for Skin and Venereal diseases, for Ear, Nose and Throat diseases and a Dental Clinic have been inaugurated. The X-Ray Department has been thoroughly reorganized and is now equipped with the latest apparatus.

The tuition of nurses has been organized and twenty-one probationers are under regular training.

The students of the Osmania Medical College receive their clinical instruction at the Osmania Hospital. Wards have been opened for maternity cases and the students who used to go elsewhere for midwifery training are now trained in the Osmania Hospital.

The experiment of opening a maternity department has proved a great success. The wards are always full.

### Victoria Zenana Hospital.

The Victoria Zenana Hospital, as its name suggests, was established in memory of the late Queen Victoria. The foundation-stone was laid by His Majesty King

George V, when he visited Hyderabad as Prince of Wales in 1906. It is a purdah hospital for women, administered by a staff of highly qualified women doctors and nurses, and possessing accommodation for 150 in-door patients. The number of out-door patients was 27,279 last year. The institution has succeeded in overcoming the prejudice against modern methods of treatment and is gaining in popularity daily. Recently the staff has been increased and considerable sums have been spent on furniture and equipment, and the number of beds has been increased from 100 to 150.

Nurses, midwives and dais also receive training at the Victoria Zenana Hospital.

### **Jagirdars' College.**

This is a boarding school for the sons of Jagirdars started nine years ago under the commands of His Exalted Highness, and financed by a cess on jagirs. It is under the direction of a Board of Governors and its staff consists of an English Principal, three Housemasters with European qualifications, and other graduates of Indian Universities.

There are over 180 boys, practically all boarders, both Mahomedans and Hindus.

The College is run on English Public School lines, so far as is suitable to Indian conditions. There is a preparatory school for boys of 6 to 13, and an upper school for boys up to 18 or 19.

All the boys are housed in the same building, but the small boys have separate dormitories and a separate dining room and are under the immediate care of the Matron.

The system of prefects was introduced some time ago and has proved successful. Regular games are played daily by all. There are a Rovers' Troop, two Scout Troops and one Cub Pack. The boys have physical instruction every morning before breakfast and riding classes are held twice a week.

### **Hyderabad Ladies' Association Club, Hyderabad Deccan.**

The Club was started in 1901 through the combined efforts of Lady Casson Walker, Lady Hydari, the late Begum Khedive Jung and Lady Glancy, to enable English and Indian ladies to meet together in a friendly manner with perfect equality and with mutual respect and affection. It has succeeded wonderfully well in these respects, and owing largely to the efforts of its present President, Lady Hydari, a site was secured and plans were made to erect a permanent building in a central and attractive position. The foundation-stone was laid by Lady Barton, the Patron of the Club, on the 29th November, 1929, and the grounds opened formally by Her Excellency Lady Irwin on the 17th December, 1929. Since then, the grounds have been used regularly for tennis, net ball, badminton and croquet. Since the completion of the beautiful building, some eighteen months ago, with its large wall and spacious stage, the Club has supplied a long-felt want and is now a centre for At Homes, concerts, lectures, etc. The membership is 216.

### **Fateh Maidan.**

It is a fine plot of land, beautifully turfed, and about half a mile square in extent. The Maidan which

is situated at the foot of the **Black Rocks**, received its name (the **Plain of Victory**) from one of Aurangzeb's Generals who defeated a body of Sultan Abul Hasan's troops here. It is a polo and general recreation ground, maintained by the Military Department of His Exalted Highness' Government.

### **Osmania University College for Women, Hyderabad-Deccan.**

The Osmania University College for Women is a very old institution. Its School section was founded by the illustrious Statesman, Sir Salar Jung I. The number of pupils, the standard of education and the importance of the institution gradually increased until, seven years ago, it was raised to the status of a first grade college. The School section prepares pupils for the State High School Leaving Certificate Examination and also for the Osmania University Matriculation. The College prepares students for the Osmania University degrees in Arts and Theology, and Science. While the medium of instruction in the High School classes is English, the medium of the Osmania University Matriculation classes and in the College is Urdu, with English as a compulsory second language. The strength of the institution is at present 525 girls.

### **Mahbubia Girls' School.**

The Mahbubia Girls' School is an institution unique in this State founded to give education to girls of good Indian families on the lines of a high class English girls' school. It owes its existence largely to the efforts of Lady Casson Walker, Lady Glancy and Lady Hydari. It is staffed by highly qualified English and Muslim teachers.

The School prepares pupils for the Cambridge Local examinations and also for the examination of the Royal Drawing Society and the Trinity College of Music. In addition to the usual subjects taken in an English school, the curriculum includes Oriental subjects : Urdu, Persian, Arabic, Diniyat and Koran-i-Shareef. Since the extension of the school building, the Domestic Science branch has been considerably developed. This now includes English and Indian cookery, laundry work, household cleaning, first-aid, hygiene and simple child psychology. The School has big Junior section under a trained Kindergarten Mistress, and for the teaching of games and gymnastics the services of an English lady from Bedford Physical Training College have been engaged.

Funds for the foundation of the School were originally donated by His late Highness as a result of an appeal to him by Her Majesty Queen Mary when she visited Hyderabad as Princess of Wales. The experiment has proved a great success and the school now has 318 girls on its register.

### **Victoria Memorial Orphanage and Technical Institute.**

On the 7th of March, 1901, His Highness the late Nizam appointed a committee of nobles and high officials to consider a fitting memorial to Her Majesty the late Queen Victoria ; and requested the Hon'ble the Resident (Sir David Barr) to be its President.

A Mass meeting of the citizens of Hyderabad was held at the Residency for raising a Fund and subscriptions were invited from all parts of the Dominions.

Nearly Rs. 1,80,000 were collected in a year, and His Highness was pleased to sanction the transfer to "The Victoria Memorial Fund" of certain sums of money previously collected by subscription for other purposes but not spent. These amounted to six lakhs. When it was decided to have an Orphanage and Technical School as the most suitable form of Memorial, His Highness very kindly placed at the disposal of the Victoria Memorial Fund Committee his unfinished Palace at Sarurnagar, for its use.

To insure an adequate income for the maintenance of the Orphanage and Technical School it was suggested by the President, and approved by His Highness, that six lakhs might be made over to the State by the Victoria Memorial Fund Committee in return for an annual grant to it of Rs. 50,000 in perpetuity.

This 50,000, together with the interest accruing from investments is the present source of income.

The Orphanage and Technical School was formally opened by His Highness on the 14th of February 1905.

The number of children originally admitted was below 300, but it rose in time to 500, (fluctuating of course according to circumstances). At present it is 267 (134 boys and 133 girls).

In February 1906 His Royal Highness the Prince of Wales (His Majesty the King Emperor) honoured it with a visit during his stay at Hyderabad, and in 1908 Her Excellency Lady Minto paid a visit to it.

The Institution is under the direction and control of an Executive Committee of which the President is the Hon'ble the Resident at Hyderabad. And it is

under the direct management of a Superintendent and a Matron.

A resident doctor is in charge of the Hospital and Sanitation.

The Technical Branch (the more important side of the Institution) has an efficient staff, and the literary side too is not neglected.

It may be said that during the last three years the Orphanage has been developing on satisfactory lines and promises to become in time, with the progress of Technical instruction, an institution of which the Dominions might well be proud.

The children are healthy and well-cared for. The play-grounds are ample; a Swimming Bath has been provided, and an excellent Dormitory has recently been built for the girls. In short, the Orphans enjoy all the amenities of a well organized boarding school. They have also their own Boys Scout Troop and Girl Guide Company.

### Nampalli Railway Station.

The present building although laying no pretence to any architectural merit is interesting as reminiscent of the time when the railway line was first opened in the Dominions during the regime of the First Salar Jung. The quarters of the railway staff, close by are interesting, built in imitation of Masjids and surmounted with domes.
